INTRODUCT

ABOUT US

SCAN STUDIO LIGHTING

We are a Danish company that are passionate about lighting. Since we started 30 years ago it has been our ambition to make flexible quality lighting, design that lasts - simple and clean. And to introduce daylight into your home.

We have designed and built the magnetic system (Magnetline and Microline). We have a deep technical expertise in light. To add the extra design look and feel we cooperate with leading Danish pendant and lamp designers.

The catalogue is divided into three parts.

- Orange part: Magnetic rail flexibility (12V).
- Turqoise part: Proline rail (230V).
- Grey part: Other light products that we also offer - like table lamps, plafonds, etc.

You are always welcome to contact us with your questions and specific needs. Please enjoy!

WHY MAGNETIC 12V

**MAGNET & MICROLINE
– BY SCAN STUDIO LIGHTING**

Easily click on and off your lights and pendants (no electrician needed).

A transformer changes the electric power into 12V - which makes it touchable and completely save.

Timeless look and Danish design by Scan Studio Lighting.

The rails can be angled in many ways – and can even be mounted on sloping walls.

Contact us for your specific measurements and we will help you design your rail system.

ION

WHY PROLINE 230V

– BY SCAN STUDIO LIGHTING

Electric power, 230V, the standard system for most homes. No transformer is needed. Turn off all electric power whenever you wish to change the spot light and pendants in your rail system.

This rail system comes in three colours:
Black, silver and white.

The rails can be angled in 90 degree bends and only on regular surfaces.

Contact us for your specific measurements and we will help you design your rail system.

OTHER LIGHTING PRODUCTS

**LED DOWNLIGHTS, PLAFONDS, WALL, TABLE, PENDANTS AND FREE STANDING LAMPS
– BY SCAN STUDIO LIGHTING**

Plafonds, wall lamps and other lights matching the Scan Studio designs. Here you find the extras that makes it possible to combine the pendants used in either the magnetic or regular rail systems with e.g. a free standing lamp.

You are always welcome to contact us with your specific needs.

MAGNETIC FLEXIBILITY

Magnetline by Scan Studio Lighting

EASILY CLICK YOUR LIGHTING ON AND OFF – MAGNETLINE AND MICROLINE SYSTEMS

MAGNETIC AND FLEXIBLE SOLUTION

MAGNETLINE IS THE MOST EXPANDED MODULE IN OUR RANGE. IT FITS ALL INTERIORS (INCLUDING MOISTY ROOMS). A LOT OF DIFFERENT PENDANTS AND SPOTS TO CHOOSE FROM; AS LONG AS IT FITS THE 12V SYSTEM. GET INSPIRED ON THE FOLLOWING PAGES.

THE MAGNETIC MICROLINE SYSTEM

FOR SMALLER AREAS; LIKE GLASS DISPLAY CABINETS; WE OFFER THE MICROLINE SOLUTION. IT IS SIMILAR TO THE MAGNETLINE, JUST SMALLER! ONLY TINY SPOTS FIT THIS SYSTEM.

Scan Studio® Lighting

PROLINE SYSTEM

230V

- designed for everyday life

Electric power, 230V, the standard system for most homes.

No Tranformer is needed, but you have to turn of all electric power, whenever you wish to change your lighting in the rail system.

This rail system comes in 3 colours: Black, silver and white.

The rails can be angled in 90 degrees and only on regular surfaces.

Contact us for your specific measurements, and we will help you design your rail system.

Unica floor lamp (see fig. A)
Height: 1400 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-271-00-3-1	white
2-271-00-3-2	black

Unica Mini floor lamp (see fig. B)
Height: 1400 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-274-00-3-1	white
2-274-00-3-2	black

Available in several colours,
call us for more info.

Ceres floor lamp (see fig. C)
Height: 1400 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-273-00-3-1	white
2-273-00-3-2	black

MATCHING TABLE LAMPS

Unica Mini table (see fig. A)
Height: 440 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-274-01-1-3	white
2-274-01-2-3	black

Ceres table (see fig. B)
Height: 440 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-244-01-3	white
2-244-02-3	black

Classic table (see fig. C)
Height: 440 mm.
Energy efficiency category: B - D
Socket: GY6,35 max. 12 V/50 W

Art.-No.	version
2-247-11-3	white
